Durant les fêtes, il peut

y avoir des excès...

Table 4. General principles in the treatment of alcohol intoxications^a

Gastric lavage, induced emesis, or use of activated charcoal to remove alcohol from gastrointestinal tract needs to be initiated within 30 to 60 min after ingestion of alcohol

Administration of ethanol or fomepizole to delay or prevent generation of toxic metabolites needs to be initiated while sufficient alcohol remains unmetabolized measurement of blood alcohol concentrations and/or serum osmolality can be helpful

Dialysis^b (hemodialysis > continuous renal replacement therapy > peritoneal dialysis) helpful in removing unmetabolized alcohol and possibly toxic metabolites and delivering base to patient to ameliorate metabolic acidosis

The background is a warm, reddish-orange gradient. It features several decorative elements: white snowflakes of various sizes scattered throughout, a large, glowing starburst in the upper left, and a golden, textured ribbon that loops across the middle. There are also faint, concentric circular lines and soft, glowing spheres in shades of orange and red.

**PRENONS LE CAS DE
Mr G**

Bien connu du service et du Dr B

L'éthanol (PM de 46 Da), se dialyse bien...

SANG, FEUILLET N° 1

Analyse	Unité	Réf./ Seuil	3377344	3584325	3585269

Mr G vient en dialyse avec **3.8 ‰** et repart 4h plus tard avec **0.8 ‰**

Pourtant, Mr G ne comprend pas !

**«JE COMPREND PAS,
DOCTEUR,
J'AI RIEN BU ???»**

Se pourrait-il qu'il absorbe l'alcool par les pieds ?

Peace On Earth study

Percutaneous Ethanol Absorption Could Evoke Ongoing Nationwide Euphoria and Random Tender Hugs

BMJ

RESEARCH

CHRISTMAS 2010: RESEARCH

Testing the validity of the Danish urban myth that alcohol can be absorbed through feet: open labelled self experimental study

Christian Stevns Hansen, doctor Louise Holmsgaard Færch, doctor Peter Lommer Kristensen, doctor and research fellow

Pas d'absorption par les pieds !

Hillerød, Denmark

Mr G ne se laisse pas démonter

«J'ai peut-être bu un peu de blanc avec la fondue, mais pour aider la digestion»

Que répondre à cela ?

BMJ

Effect on gastric function and symptoms of drinking wine, black tea, or schnapps with a Swiss cheese **fondue: randomised controlled crossover trial**
